

Science Week

Science week will take place on Monday 23rd May until Friday 27th May. This week will give all the children the chance to celebrate science and try out new experiments. All children will have the opportunity to take part in science workshops on Friday 27th May, as we will welcome two real scientists from *Science Boffins* to the school. We ask for a voluntary donation of £1 to contribute to the payment of this.

As this year has heralded the first British astronaut in space, On Friday, KS1 and KS2 children can dress up in space-related science costumes. EYFS will dress up in mini-beast costumes, to celebrate the end of their mini-beast topic.

We all hope this science week will be the best one ever and that your children return home full of exciting scientific facts to tell you and investigations to try at home. Keep an eye out on our Facebook page throughout the week, for science week pictures and updates!

Y6 SATs

A huge well done to our Y6 pupils for their efforts in this year's SATs tests. We're truly proud of their enthusiasm for learning and their resilience, which will stand them in good stead for the next part of their education.

Ofsted inspection

As you will already know, Ofsted visited the school last week on Tuesday and Wednesday. We are waiting to receive their final report and hope to be able to share this with parents in the very near future.

Safety and security of the school building

Please note that all school visitors, including parents, must go via the school office if they wish to enter the building or speak to a member of staff. Children who arrive late must be taken to the school office, who will then direct them to class.

Let us know what you think

We are preparing our annual survey cycle. This is a chance for parents, pupils and staff to give their views about the academy. The data this gives us is invaluable in helping us to plan for the future and make Brunel the school you want it to be. We will be sending a link to the survey both by text and by e-mail (to those who have given us an e-mail address), so that you will be able to complete the survey easily using phone or computer. Hopefully, this will mean that as many of you as possible are able to complete the survey. If you would like to use a school computer to complete the survey, please see Miss Davis in the morning, who will direct you to a computer. There will also be paper copies available from the office. The more responses we get, the better we will know what we are doing well and what we need to do better. Many thanks in advance for your support.

KS1 at the V & A

Key stage 1 classes have visited the Victoria & Albert museum as part of their Victorian themed project. The children learned about the clothes that wealthy Victorians wore and how the size of a woman's dress was the ultimate status symbol! Also, the children had a great time looking at Victorian artefacts and learning more about this interesting era.
