July 2021
Curiosity Edition

Welcome

Special thanks to Year 2 for helping design this edition with their favourite curious characters.

THE FUTURE BELONGS TO
THE CURIOUS.
THE ONES WHO ARE
NOT AFRAID TO TRY IT,
EXPLORE IT,
POKE AT IT,
QUESTION IT
AND TURN IT INSIDE OUT.

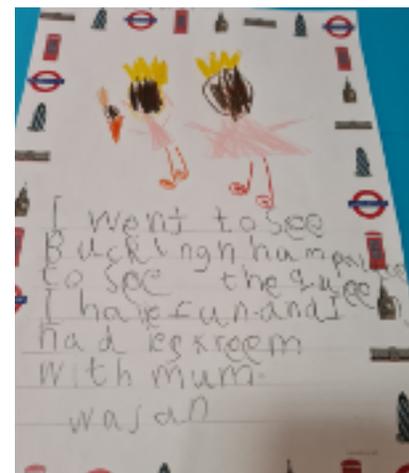

Nursery

Nursery have been curious about next year and what they are going to do.

Reception

"I am curious to explore Buckingham Place" - Wajan

Year 1

"I'm curious about what my new classroom looks like." – Chase

"I'm curious about how I'm going to look when I'm older." – Ellie

"I'm curious about how our year 2 Jigsaw friend will look." – Destiney

"I'm curious about the work we're going to do." – Hafsa

"I wonder if we are going to have carpet spaces next year." – Mohammed

Year 3

How do you get a paper clip out of water bottle without touching it? We developed their curiosity when exploring forces and magnets in our science lesson!

Year 5

"We were curious about what makes a great picture book. We discovered that, if you keep the writing short and sharp, you will keep the child hooked!"- Nubaid

Year 2

"This term we learnt about Kenya in Geography. We were so **curious** to learn more so our teacher found a school we could be pen pals with and we wrote letters to children in Kithiiani Primary School in Machakos which is in Kenya. Finally after 2 weeks they replied back to our letters. My pen pal is called Kiasusa and he likes to eat chapatis. I didn't know what a chapati is but I googled it and they look delicious so I've asked my teacher if we could make some at school. I can't wait to find out more about Kiasusa's life!"

Mohab

Year 4

In Year 4 we showed curiosity by thinking about how we can encourage more nature into our school garden. As part of our John Muir award, we made some fat balls to hang in the trees in the school garden. We then wrote step by step instructions for others to follow. We are hoping that we will see lots of nature over the next few weeks!

Year 6

Our teachers were impressed with our open-minded curiosity and tolerance of other people's ideas and world-views from our online Humanism lesson on RE day last week.

Natalie, who spoke to us about Humanism even said we asked lots of interesting questions. We then designed new logos for the British Humanist Association.
